First Selectwoman's Corner

Dear Willington Residents,

Another school year has started and fall is upon us! This is the perfect time to enjoy the cool crisp days in one of our parks, hiking or one of the many other enjoyable activities you can read about in this publication.

There is also a lot happening at the Town Office Building and with Public Works as we begin our preparations for the winter (and budget season) ahead. We will continue roadside mowing, with the new roadside mower that was purchased in August, until the work is complete.

As winter approaches, the various boards and commissions will also begin their budget preparations. For those interested in following the budget process, be sure to go to our town's website, www.willingtonct.org, and sign up for agendas and minutes – or better yet, come out to a meeting – we would love to see you there! You can find a listing of town meetings on the pages of this publication.

The Selectmen's Office is open during regular business hours: Monday from 12:30 pm – 7:30 pm and Tuesday – Friday from 9:00 am – 2:00 pm.

Regards,
Erika G. Wiczenski
First Selectwoman

Talk of the Town

Talk of the Town (Employees that is)...

Did you know that there is a record of every meeting held by a Town Board or Commission?

These important documents are preserved by the hard work of our Recording Secretaries. This critical position works with the Board Chairman to be sure an agenda is filed prior to such meetings and an accurate account of the meeting is written and recorded in the Town Clerk's office after a meeting. If someone isn't able to attend a meeting in person, the minutes are a great source of information that captures both the discussion and action taken by each board. This month we want to recognize our wonderful Recording Secretaries and thank them for their hard work and dedication.

THANK YOU!

**Emily Perko, Marysa Semprebon, Mary Vertefeuille, Eileen Smith, Brenda Sullivan,
Marilyn Schreiber, and Peggy Dupilka**

Conservation Commission

Fall weather is upon us and the members of the Conservation Commission hope that you will take the opportunity to put your feet on the ground along some of the trails through the forests and along the waterways in the preserved natural areas we are fortunate to have in Willington.

The 300-acre Fenton-Ruby Park and Wildlife Preserve and Drobney Sanctuary on Moose Meadow Road has 4-plus miles of trails through woods, over ridges and along ponds and streams. A kiosk with maps is located at the parking area on Burma Road, and a box with nature trail guides is located a short distance down the Taylor Trail. Several picnic tables and benches are available in the picnic area adjacent to the parking lot and a wildlife observation deck overlooks the Beaver Pond. Dogs are welcome to accompany owners, but must be kept on a leash for their safety and to protect the Park's wildlife.

Getting around on any of the 4 main trails is easy. Most trails can be walked in 30-45 minutes. Trail maps are located at all trail intersections to help orient you if there are no maps at the kiosk or if you choose not to carry a paper map. For more adventure, consider using the Park's trail system to hike to the Langhammer Preserve in Ashford. Start by taking the Park's Ruby Trail to the Ashford Link Trail. From there, it's only another 0.1 miles to Lustig Road in Ashford, where you can connect to the Ashford Trail immediately across the road.

The 28-acre Talmadge Tract, which contains the Talmadge Spur Trail with 1 ½ and 2-mile loops, will take you through scenic woodlands and along gravel Mason Road. This tract abuts the 400-acre UConn Moss Forest Tract, and on the other side of Mason Road is the 138-acre Royal Knowlton Preserve. Several miles of the Connecticut Blue Trail (Nipmuck) run through this area, with a portion along the Fenton River as it flows through a deep ravine. The 3/4-mile Knowlton Spur Trail connects the Nipmuck Trail to the Talmadge Trail. Paper maps can usually be found on the sign at the Talmadge trailhead on Mason Road across from the gravel parking area, and also at the sign where the Nipmuck Trail crosses Mason Rd onto the Knowlton Preserve. Brochures and trail maps for these areas, as well as for Fenton-Ruby Park can be found on the Conservation Commission website (see below).

Chenes Roches (translation: "oaks rocks") is a 56-acre wooded preserve in northeast Willington owned by Joshua's Tract Conservation and Historic Trust. Trails wind through a varied terrain of hardwood forests, stands of pines and along a hemlock-shaded stream in a steep-sided valley. A round trip of 1.8 miles will take you across several small spring-fed streams via new bridges added by volunteers this June and an altitude change of about 250 feet from the parking lot to the valley stream. A trail map and additional information about the preserve, including directions, can be found on the Joshua's Trust website, www.joshuastrust.org. There is a kiosk with trail maps at the small parking area 500 feet past the south end of Laurel Drive. ***Please stay on the trail and respect boundaries where the trail passes near private property.***

If you are interested in taking an active part in helping the Town manage its environmental resources, the Commission has openings for alternate members. Alternate members participate in meetings and may be seated as voting members in the absence of regular members. Anyone is welcome to attend our meetings in the lower level of the Town Office Building on the third Wednesday of every month. Contact Peter Andersen, Commission Chair, at 860-933-6380 or andersen108@sbcglobal.net, or Kathy Demers, Commission Vice-Chair, at 860-377-6416 or kdemers48@gmail.com for more information. Please visit the Conservation Commission website under "Boards and Commissions" on the Town of Willington home page, www.willingtonct.org, for information on conservation issues, programs and links to other websites. Last, we would be happy to hear any comments you may have about your experiences regarding Willington's outdoor resources.

Plan to take advantage of Willington's protected forest resources this fall for appreciation of their beauty, observation of the varied ecosystems and habitats, for exercise and for their restorative powers (shinrin-yoku: Taking in the Atmosphere of the Forest).

Enjoy the lovely fall weather! We hope to see you on the trail.

EC-CHAP The Dye & Bleach House
Eastern Connecticut Center for History, Art, and Performance, Inc.
Visual Arts Community Gallery” By Rebecca Zablocki

The Eastern Connecticut Center for History, Art & Performance (EC-CHAP) would like to welcome you to visit The Dye & Bleach House Community Gallery. This recently established gallery space resides on the first floor of The Mill Works facility at 156 River Road in Willington, CT. When passing by this historic mill on Route 32, or perhaps attending a performance in The Packing House, which is located in a different part of our building, you may not realize that our Community Gallery space is just inside the main entrance, filled with wonderful works of art from local and regional artists! The Community Gallery functions through the participation of artists, whom are able to display their work in exchange for being present in the gallery space while we are open to the public. Each exhibit is on view for eight weeks and consists of the work of multiple artists. During the eight week period, each artist takes turns gallery sitting on Saturdays from 10am until 2pm.

This program has created an ever constant flow of art and artists that come through our doors and has allowed for us to showcase some amazing people that live and work in our community. Artists from Connecticut and throughout New England can apply to have their work, or a group of artist’s work on display.

Our current exhibition, ‘View’ will be open from September 7 to October 26, 2019. This exhibit will consist of work from five Connecticut artists, **Vilnis Atrens, Diane Diedrich, Penny Guerin, Arpita Kurdekar & Steve Schumacher**. Each of them will be displaying a variety of 2-dimensional works. All five of them have very different approaches to creating their work and have taken different journeys to get to where they are today.

We encourage artists of all styles, media, levels of practice and age to inquire about exhibiting here. We are very lucky, that in the short lifespan of the Community Gallery, we have already had a wonderful group of artists and patrons, some patrons have even become exhibiting artists, like Vilnis Atrens, who we met during one of our Gallery events. Our next show will be on display from **November 9 through December 21, 2019**. Please check our website for details and artist bios (www.ec-chap.org).

If you are a hobbyist that is just beginning your creative endeavors or a professional artist looking to have work displayed in a local, less commercial setting, or maybe you are a teacher with a group of talented students that need to get their work out into the world, this is a great place for you! Come check out our space and visit the art during our open hours, or send an e-mail to communitygallery@ec-chap.org to inquire on how to get involved!

Rebecca Zablocki,
Director, Dye & Bleach House Community Gallery

Hope to see you all at these events! You are sure to enjoy the friendship of this wonderful group of gardeners and garden lovers!

In addition to planning the fall schedule, here are some highlights of this year’s events.

With the completion of the new front steps and the access ramp, we have revamped the front gardens. Select Seeds is a wonderful and generous group which has donated flowers to us for the past two years with the promise of more to come next year. Their donations have allowed the Willington Garden Club

to beautify the grounds around the Willington Town Offices. In addition to the varied plant donations, the gorgeous plantings to the left of the front steps are the latest gift. We are so grateful to this wonderful organization. In addition, we would be totally remiss not to thank Knight Construction for their annual donation of soil and mulch! Bobby is a gem!

Our newest member, Pat Stukel, and our wonderful Cooper planted much of the garden behind the Town Office Building. Pat is a nurturer of both plants and people. Also, the planters greeting visitors at the entrance to the Human Services Department, Parks and Recreation Department and the School Superintendent’s office were made possible with the donations from Select Seeds.

Garden Club Continued...

You're invited to stop by and enjoy the radiant geraniums gracing the front of the "Honor Roll" sign adjacent to the Old Town Hall. The VFW Ladies Auxiliary provided the flowers and mulch and Margaret Gankofskie took the lead in planting them.

Margaret and Joan Taraskiewicz

have maintained the garden during the summer. Their gentle tending of this garden means we can still enjoy the geraniums as fall approaches.

With the passing of summer, we would like to ask the Willington Community to donate pumpkins and a few bales of hay to decorate the grounds in preparation for the November elections! Please drop off your donations in the garden in front of the Town Offices Building. Many thanks.

You can find the Willington Garden Club on Facebook and on the Web at <http://willingtongardenclub.org/calendar/>. Be sure to "Like" us when you visit our Facebook page!

Historical Society

Society Membership ... start your relationship with Willington History!

So here we are again, as Summer fades and we slowly transition into the subtle changes brought about by cooler weather ushering in the bril-

liance of our autumn colors. With this as a background, the Historical Society is set hopefully to begin an active fall in and around our Glazier Tavern.

It's hard to believe that the Society has made our home at the tavern now for ten years. That time has rewarded the Society and the residents of Willington with a stable and attractive two hundred (plus) year old building that reflects the history that preceded us all to this little piece of Connecticut's quiet corner.

Over those ten years at the tavern we have often talked about using the building as an interactive platform to bring interesting and educational programs to our members, neighbors and friends in the community. Which brings me to the next pending project in order for the Society to more actively use the building as a public space. That project centers around addressing being compliant with present day building codes and ADA accessibility. To bring this to a positive conclusion we are presently working alongside the town's building and fire officials.

The remainder of this year will be a time for developing a strategy to raise funds for this substantial undertaking for our 2019-2020 fiscal year. I would ask interested members of our Willington community to consider helping to "ramp" up this fundraising effort. Drop us an email!

Historical Society Continued...

Well, so much for what we're planning on the inside ... there's also something for you to watch on the outside of the property, this Fall. Keep your eyes on the small field to the side of the tavern that borders Common Road. A New England rail fence is taking shape along the road. The fence will grow to completion as time permits for rail splitting. To this point Ted Demers and I have split our way through at least two 14-foot logs.

Coming Up, December 6th, 7 pm Tree Lighting on the Town Green

Please join the Society for an open house, at the Glazier Tavern, in conjunction with the annual Town Green tree lighting.

The Society invites all members of the Willington community to participate. This is the time to kick off the traditional holiday season, with good song, community spirit, fun and lite refreshments as we join together to add some festive color to the evergreen tree on the historic Willington Town Green.

Plan on attending to enjoy the surroundings of our 1815 tavern, the glowing fires and the Society's ten years of making the Glazier Tavern it's home.

News from the Tavern

Older than thought ... recent research by Willington Town Historian, Mark Palmer, has revealed that the tavern building could have been built as early as 1806 and not by Daniel Glazier.

Carpenter Wanted ... to help with the restoration of the Society's 1850's three hole privy. The privy is a Willington original from Polster Road.

Split-rail fence, update ... It's going up! The project was approved this summer by the Historic District Commission, continued building can progress, once more rails are split. If you're handy with a maul and wedges or would like to learn ... contact the Society. We'll be splitting rails that are 14 feet in length. Believe me, the ash logs split quite easily, if started in the right direction!

New apple tree planted ... an antique cider apple tree was planted in the tavern yard where a large soil pile had been. Now we sit and wait for it to grow a few years! Interesting thing, when digging the hole for the tree, pieces of an old sheet cast iron stove came out of the hole. No, not on their own!

Wall Restoration ... at present work is still progressing on the interior, north wall in the taproom area. The focus of the project is to restore the missing peg and chair rails to the wall as well as restoring the original wall and moulding colors.

Wanted ... 3 Locust poles, for use as fence posts (8 ft. long).

Historical Society Continued...

The Willington PTA is an association of parents, teachers and administrators who raise funds to enhance and enrich our children's school experience. Money raised in the past has been used to pay for field trips, assembly programs and scholarships. We also organize family fun events to bring our children and parents together. Anyone can join the PTA for only \$10.00 (Active) or \$25.00 (In-Active Members). Our events are not possible without our Active member volunteers. Visit our Meet and Greet tables to sign up as a volunteer for one or more of the awesome events we put on for our kids. Our monthly meetings will be held the 3rd Tuesday of every month in the Center School Library @ 6pm. Join our Facebook page at The Willington PTA.

## Ancient Civilizations

Last article I wrote about the Great Sphinx and posed a theory the structure is thousands of years older than popular opinion. This theory was reinforced with the discovery of Göbekli Tepe, an ancient temple, through radiocarbon analyses, dates back between 10,000-12,000 years ago. An even more fascinating discovery, the temple was intentionally buried 1,000-2,000 years after it was constructed. This poses a mystery as to why the temple was buried and what happened to these advanced civilizations we did not believe existed until 7,500 years later.

First, the climate around the time was extremely cold, continental glaciers extended much farther than we see today. The climate then began to warm slowly but reverted back to a very short cold spell known as the Younger Dryas. Based on Greenland ice core data the Younger Dryas only lasted about three years until there was a rapid shift and warming occurred, ultimately causing these glaciers to recede. Abrupt climate shifts such as this are not a natural Earth cycle, they can only be explained by catastrophic events. Comets hitting the land or shallow oceans was an initial hypothesis, however the rock record does not support this. A comet breaking through the oceanic crust and releasing hot magma would still not cause rapid warming as ice core data indicates. So if a comet impact is not the answer, then what?

Ancient script and cave paintings may actually provide us with the answer. Examining the concept of the fourth state of matter, plasma, which consists of electrically charged particles. A plasma event often visible on Earth today is the northern lights. In Earth's history much more powerful events sometimes took place due to solar outbursts and coronal mass ejections from the Sun. This type of plasma phenomena could cause strong electrical discharges from the Sun to hit Earth burning and incinerating materials on the surface. This is believed to be what caused the rapid temperature change thousands of years ago. Dr. Peratt, a physicist from Los Alamos found a petroglyph worldwide believed to have recorded these intense plasma events. Ancient text known as the Easter Island rongorongo tablets depict the same images found in caves across the globe.

Image illustrating a lab created electrical discharge in comparison to carvings from across the world.

Plasma hitting the surface of the Earth could heat and fuse rock, incinerate flammable materials, melt ice caps, vaporize shallow bodies of water and send the climate into rapid warming. The world would have been in chaos and the only survivors would have been those in secure locations, underground or in structures to protect them from the outside world. This could very well explain the mysterious burial of Göbekli Tepe. Recovering from a global catastrophic event such as this would have taken thousands of years which also explains the large gap in time of evidence between these advanced civilizations.

# Superintendents Update

Dear Willington Public Schools Community Members,  
Over the last several years the Willington Board of Education has been working to gather information and community feedback regarding the future of our school facilities. At their September meeting, the Board of Education unanimously voted to request that the Board of Selectmen establish a School Building Committee for a new preschool through eighth-grade building on a new site in town.

The extensive effort that went into this recommendation spans several Superintendents and Board of Education members. The establishment of a building committee would continue the critical work that has already been completed. The role of the School Building Committee would be to identify a new school site location, establish building specifications and architectural plans, and be responsible for supervising all aspects of the project. The committee would also identify the cost and the specifics required to send the project to a town referendum.

The Board of Selectmen will be discussing whether or not to form a building committee at their October 7 meeting with the potential for a vote that evening.

Sincerely,  
Philip Stevens  
Superintendent

# Willington Public Library Continued...

Thank you also, to our Friends of WPL, for their support in making our Summer Reading Program such a great and fun success! Next year...Imagine Your Story: Fairy Tales, Mythology, and Fantasy! We would love to hear suggestions from you, as to what you'd like to have presented along these themes.

**"Dream Big - READ!"** Read a favorite story (of your choice) and tell us all about it. Fill out a **Book Report** form. Then place it in your very own "Kids Favorites" Recommendation and Suggestion notebook for others to check out and possibly read too. It's a wonderful way to share with others why and what you like about the things you are reading. Often, others are looking for help with what to choose in reading. Grown-ups do it all the time at the Library. Now, you can be that someone helping! You will then get a special star, to place among the night sky, where it will shine bright for all to see. As a plus, for every book report you hand in, you will get to choose a book to keep of your own, which will come from a wonderful collection we will have available. Grades 3 - 8.

We would also like to thank our **Friends of WPL** for all their hard work, time, energy and efforts, that go into our most successful and largest fundraiser...the annual September **BOOK SALE**. ## Willington Public Library Continued...

This year's Jumpstart *Read for the Record*® book is **Thank You, Omu!** by the talented author-illustrator Oge Mora! *Thank You, Omu!* tells the story of a generous elderly woman who makes a fantastic pot of thick red stew. The scent from her stew travels all throughout her neighborhood and brings all of her community members over to her home for a taste. By the end, she shares a lovely feast with her neighbors where everyone contributes to the meal.

After our story time, we will be working on a craft related to our story's theme.

Our very own **Alice Allan returns on Tuesday, November 12th at 6:30pm** to launch her new book, **The Families of Samuel and Hannah (Fuller) Eldredge: Colonial Times through the Revolutionary War—Willington, Connecticut.** This is her sixth book, the first, in her Connecticut series to come.

**About the Author:** Alice Allan, a Colorado native and retired accountant, used her analytical training to research her family's rich history, then wrote several books from her findings. She now resides in Connecticut, USA, where she writes for her own amusement. She is a former Willington resident and has spoken at our Library many times before about her books and adventure. We have many of Alice's books for you to read and enjoy. We are so happy to have her back.

**About the Book:** Born in Connecticut Colony, Samuel Eldredge and Hannah Fuller inherited the culture of their ancestors—personally affected by the Great Migration, beginning with the Mayflower; inevitable changes caused by the settling of New England; brutal encounters with Indians which resulted in the loss of immediate family members; the toll of migrating with young families to a new land, establishing towns and churches all the while enduring harsh New England winters and unsanitary conditions we cannot begin to comprehend. Samuel Eldredge first served in the militia of Connecticut Colony. His final service was in the Connecticut line, for the United States of America. He was not famous, didn't serve in a court of law, a town council or any leadership position in the church. He was a common farmer whose probate inventory included a canteen, gun bayonet, and cartridge box. *The Families of Samuel and Hannah (Fuller) Eldredge: Colonial Times through the Revolutionary War—Willington, Connecticut* is a collection of documented data of their ancestral families, their life in Willington, and their part in the evolution of this country.

*Books by Alice Allan:*

- THE BALLOU FAMILY SERIES
- *1873: Diary of One Progressive Woman (Addie L. Ballou)* (edited and appended by Alice Allan)
- *Addie L. Ballou: Spiritualist Reformer, Poet, and Artist*

WSFDFS Awards Night- Grateful students celebrate receiving their scholarships thanks to generous donations from people like **YOU!**

### This Fall- Pay it Forward with Payroll Deduction

Many employers in the area partner with charitable organizations like the United Way to enable employees to make charitable contributions through payroll deductions. Setting up contributions via payroll deduction makes it easy to achieve your giving goals by automating the process; and regular small contributions add up overtime.

Did you know, in most cases, you can direct payroll deducted contributions to the charity of your choice? For example, the United Way maintains a list of many charitable organizations for you to choose from. They also allow you to add organizations to their list. This is a great option if you prefer to see your contributions used to benefit your local community.

The [Willington Scholarship Foundation Dollars for Scholars](#) is set up with the United Way already. Thanks to the generosity of several Willington residents, we receive regular contributions from the United Way for their payroll deducted contributions.

If your employer encourages you to participate in an annual giving campaign through payroll deductions, consider directing your contribution to the [Willington Scholarship Foundation Dollars for Scholars](#).

If you don't see [Willington Scholarship Foundation Dollars for Scholars](#) on the list as an approved charity in your employers giving program, ask if we can be added!
